J. I. COLLIER, M. D.
EYE, EAR, NOSE AND THROAT
CARL GRAU BUILDING
TAYLOR, TEXAS

June 1,1927.

Hon. J. C. Collier,
Barnsville, Ga.

Dear Mr. Collier:

I wish to thank you for your letter of May 19 relative to the Collier family.

I think that perhaps I am a descendent of Vines Collier, but am no t sure. It is my understanding that my ancestors came from England and settled first in Virginia and later in Georgia.

Instead of being a descendent of Benjamin Collier, however, I think my great-grandfather was Henry Collier, but whether Henry was a son of Vines Collier or not I do not know. I would appreciate it very much if from the information you have you would tell me whether Vines Collier had a son named Henry.

I am 47 years of age, having been born in Texas in 1880. My father,who was also born in Texas, was Julius W. Collier. My grand father who came here from Georgia was John Thomas Collier, and it is my understanding that my great-grand-father's name was Henry.

The names John Thomas, William, Robert, George W. Juriah, and Zach are frequently repeated in my family.

As stated above I will appreciate very much your supplying me with information concerning Henry Collier, who was probably a brother of Benjamin, and if there is any further information that I can give you concerning the Texas Colliers, I shall be glad to do so.

Very truly yours,

J. Johnson Collier M.D.
